PREDICT TWENTY-CENT COTTON

There is a belief among cotton men and others who have studied the cotton situation that cotton will bring twenty cent a pound here this fall, if not twenty-five. The warring nations of Europe are constantly demanding more cotton of low grade to use in making ammunition and high grade and medium grades for the making of clothing for the soldiers, this demand will probably be greater than the supply, unless a world's record cotton crop is grown this season.

TOBACCO FOR FRENCH SOLDIERS

Within a few days there will be sent from New York City the first shipment of the largest tobacco order ever placed in this country. The order totals 23,500,000 pounds. The tobacco will come from Louisville, and will be shipped in hogheads, of which there will be 15,000, the total shipment weighing 11,700 tons.

The French government is the purchaser of the tobacco, all of which is in leaf form and will be manufactured in France. The purchase is the result of the decision of the French war department to see that the men in the trenches shall receive all the tobacco they desire without being forced to depend on shipments from their friends and relatives and from the various societies formed to supply them.

The first shipment of 3,000 tons will be sent on the steamer Lady Nicotine. This vessel is known as the Kirsten, and will be named in honor of the cargo she will carry. There were five sailings in July and will be five more during August.

FEDERAL ROAD FUNDS

Secretary of Agriculture Apportions Money to States, as Provided in the New Road Law.

The Secretary of Agriculture, under date of July 11, 1916, certified to the Secretary of the Treasury, and the governors and State highway departments of the several States the following apportionment of the \$5,000,000 of Federal road funds available for the fiscal year ending July 30, 1917. This is the first installment of Federal money to be apportioned to the States under the Federal-aid road act approved July 11, 1916. Before making the division among the States, the Secretary, in accordance with the act, deducted 3 per cent, or \$150,000, needed for administering its provisions. This left \$4,850,000, one-third in the ratio of area, one-third in the ratio of population, and one third in the ratio of mileage of rural delivery routes and star routes. The apportionment on this basis gives the following amounts for the various States:

Alabama	\$104,148.90

Washington	71,884.28
West Virginia	53,270.46
Wisconsin	128,361.07
Wyoming	61,796.82

Total \$4,850,000.00

The apportionment indicated in the above is only of one year's funds. For succeeding fiscal years the act appropriates the following amounts:
1918 \$10,000,000.00
1919 15,000,000.00
1920 20,000,000.00
1921 25,000,000.00

The act requires that the apportionment for each year shall be made in the same manner. Different sums are apportioned for each year and the apportionment must also take into consideration the population as shown by the latest available Federal census and the mileage of rural delivery and star routes as shown by the certificate of the Postmaster General for the next preceding fiscal year. A new apportionment, therefore, must be announced for each fiscal year.

The appropriations as given above does not take into consideration the \$1,000,000 additional appropriated each year for 10 years for the development of rural roads in the National Forests.

WHAT THE U. S. FARM CREDIT LAW MEANS

Creates 12 Federal banks and permits any number of joint-stock land banks to make loans at reasonable interest for long periods on farm lands.

Provides a Federal farm land board of five members to control these banks.
Banks are empowered to lend on first mortgages on farm lands in amounts of \$100 to \$10,000 for approved purposes. No loan may be made for more than 50 per cent of the value of the land and 20 per cent of the value of the permanent insured improvements.

National farm loan associations, local organizations composed exclusively of borrowers, are authorized.

The act prohibits the Federal land banks from charging more than 6 per cent interest on any mortgage. Borrowers will share in the net profits of the bank, because they are stockholders. It is contemplated that ultimately the borrowers will be the only stockholders.

Long term loans are provided by authorizing mortgages for periods of from five to forty years.

Small annual or semi-annual payments on the principal are made a required feature of all mortgages.

Joint-stock land banks are authorized. They are corporations for carrying on the business of lending on farm mortgage security and issuing farm loan bonds.

THRESHER CRUSHED CULVERTS

A couple of culverts, the new concrete ones put in by the convicts along the road this side of Colbert, were crushed in last week by parties who attempted to move a thrasher and engine across them. The concrete, which is made in cylindrical chape, with steel strips through it,

was set hard enough to permit of ordinary traffic, but not enough to stand such enormous weight as that of a thrasher engine.

COUNCIL MEETING

The city council met in adjourned session Friday night and ordered a lot of bills against the city paid, and also discussed sanitary conditions, but took no formal action. A motion to put the assistant chief of the fire department on the same salary basis as firemen, \$60.00 per month, was adopted.
